## HIGH PERFORMANCE GLOSS LACQUERS FOR AUTOMOTIVE AND INDUSTRY

### HI-GLOSS Lacquer

Black  
Epoxy polyester polyurethane lacquer.  
Resistance and extreme hardness.  
Excellent shine: >95°.

### HYDRO Lacquer

Hydro polyurethane acrylic lacquer (aqueous phase).  
Food grade.  
Bi-component water-based product.  
VOC < 50g/L

### NATO Lacquer

White and Black  
2-component solvent-based polyurethane acrylic lacquer.  
Very high resistance, abrasion, UV, chemicals, bad weather.  
Use for automotive, industry, architecture.  
Direct adhesion to metals and plastics\*  
Very high gloss >90°
