

# SILAX

## TRANSPARENT ADHESION PRIMER / VARNISH FOR CHROME

Chrome Varnish is a **clear, colorless, glossy primer** that is the only one that can guarantee adhesion to chrome\*.

**Silax** can be compared to a very thin varnish (10µm dry per coat)

It does not require any prior treatment of the chrome surface

It also works on other metals that are difficult to adhere to, polished or rough, such as stainless steel, galvanized steel and aluminum.

The chrome primer is perfectly **colorless, invisible, waterproof, chemical resistant, and sun resistant.**

### USE :
